--- RE: TRANSFER OF JACK MASON

OCTAVIAN,

AS PER TRANSGENIC CONTROL PROTOCOL C-117, REGARDING JOINT OPERATIONS BETWEEN THE TCC AND MILCOM, DR. MASON HAS BEEN TEMPORARILY TRANSFERRED TO SECTION FOUR OF THE MILITARY'S TRANSGENIC R&D DIVISION, HAZARDOUS MATERIALS TRANSPORT.

DEBARKATION TO MILCOM HQ FROM THE TRANSGENIC CONTROL COMMISSION (TCC) WILL OCCUR AT 0700H 092124Z. UPON ARRIVAL AT MILCOM DR. MASON WILL REPORT TO QUARTERMASTER STEVENSON FOR OUTFITTING. A TRANSPORT WILL BE WAITING TO TAKE HIM TO EARTH.

DR. MASON WILL BE ESCORTING A CRYOCASKET CONTAINING TCC QUARANTINE SUBJECT 'KARINA' FROM MAXIMUM SECURITY PRISON 'C', UNDER SUPERVISION BY COLONEL WILLIAM STOCKTON. UPON ARRIVAL AT THE PRISON, THE QUARANTINE SUBJECT WILL BE HANDED OVER TO DR. MASON WHO WILL RETURN TO MILCOM FOR DEBRIEFING.

DESPITE HIS RECENT INSUBORDINATION CHARGES, WHICH I AM SURE YOU HAVE ALREADY READ IN DETAIL, I HOLD DR. MASON IN THE HIGHEST REGARD. IN THE PAST HE HAS DEMONSTRATED HIMSELF TO BE AN EXCELLENT FIELD OPERATIVE, AND I ASSURE YOU HE IS MORE THAN CAPABLE FOR THE TASK.

SINCERELY,
OLIVIA HOLDEN, MD
JOINT OPERATIONS MANAGER, TCC
--- FORWARDED MESSAGE ENDS ---

MASON,

I DON'T REALLY CARE WHAT DR. HOLDEN THINKS ABOUT YOUR QUALIFICATIONS, OR YOUR RECORD. THE COURT MARTIAL TOLD ME EVERYTHING I NEED TO KNOW.

I DON'T GIVE A SHIT IF YOU HAVE 'PROBLEMS WITH AUTHORITY', OR ANY OTHER ISSUES THOSE PSYCH PROFILERS CAN DREAM UP. WHILE YOU'RE WORKING FOR US YOU'RE GOING TO ACT LIKE A SOLDIER.

AND THAT MEANS FOLLOWING ORDERS AND GETTING THINGS DONE.

DON'T FUCK THIS UP MASON. EXECUTION BY FIRING SQUAD IS STILL ON THE BOOKS.

Characters

Jack Mason

Jack is a doctor for the Transgenic Control Commission (T.C.C.). Through a series of demotions Jack's once brilliant career now has him doing routine transports of patients/prisoners for the numerous military-run prison complexes around the solar system.

Karina

Karina is the subject of Jack's latest prisoner relocation assignment. Mysteriously, her transfer orders lack the usual background information. All Jack knows is that she is reported to have a transgenic virus and his task is to transport her off earth to a medical facility. She has been held in the infamous prison known as "The Anvil" for a number of years.

Stockton

Stockton is the warden of the military prison known as "The Anvil". Jack reports directly to him during his mission.

Stubbs

Stubbs is the pilot for Jack's medical transport.

Enemies

Scavengers

A ragged group of people that live off the land by picking ruins and wreckage clean. They are flighty and cautious, attacking guerrilla style then quickly retreating to the safety of their environment.

Mercenaries

Prisoners who manage to escape usually join a mercenary clan. These clans roam Earth prowling for trouble and profiting from skirmishes, dirty deals, and rough trading. They frequently make use of abandoned buildings as strongholds.

Military Alliance Security

The MAS is the governing body of law and order. They're responsible for the 7 large prison facilities on Earth. They are well equipped, highly organised, clean, and brutal.

Tools, Weapons, and Upgrades

Bone Saw

The bonesaw is a standard tool in any Field Medic kit. A high energy oscillating blade allows the operators to amputate limbs or tissue at the molecular level, for later reattachment at a medical facility. Used as a weapon, the bonesaw severs and cauterizes veins and arteries instantly, cutting off the blood supply to the victim's organs.

Weapon Energy Cores

Weapon Energy Cores (or 'WECs' as they are called) can be found hidden throughout Pariah. Installed into a weapon of your choice, they will permanently increase its power and performance. These are crucial to your survival. Higher upgrade levels require multiple WECs to be installed at once.

To apply a WEC press and hold the X key to bring up the Weapon Selection menu. Click on the weapon you wish to upgrade.

Healing Tool

Advanced diagnostic and repair device that operates at a micro-cellular level to affect repairs to living tissue. The contents of each cartridge is injected into the bloodstream, where nanite repair units travel to the area of injury and apply corrective micro-surgical repairs.

WEC Level 1: Quick Injector - decreases healing time.

WEC Level 2: Health Booster - increases your maximum health to five bars.

WEC Level 3: Adrenal Increase - increases your maximum health to six bars.

Caution: Over use may result in short-term visual impairment.

Assault Rifle

The trusty assault rifle (nicknamed: "The Bulldog") is standard issue for combat situations in 2520. The weapon fires high velocity rounds and is equipped with a zoom mode for more distant targets. Recoil makes burst firing the most tactically efficient method to employ it. It can also be equipped with armor piercing rounds for greater damage to targets.

WEC Level 1: Fire Accelerator - increases the rate of fire.

WEC Level 2: Recoil Stabilizer - decreases recoil and increases accuracy.

WEC Level 3: Armor Piercing - inflict more damage per hit.

Grenade Launcher

The grenade launcher packs a hefty explosive charge into a fist sized projectile, yielding devastating results when launched into a group of hostiles. The upgraded launcher can use remote detonation projectiles to lay traps for the unwary adversary. Additional upgrades allow the grenades to attract debris from the surrounding area and incorporate it into the weapon's fragmentation effect.

WEC Level 1: Remote Detonator - Allows the user to detonate strategically positioned grenades via remote.

WEC Level 2: Fragment Attractor - Draws metallic debris from the environment while deployed. On detonation, deals increased damage.

WEC Level 3: Target Leech - Adheres to targets, preventing them from fleeing the grenades effective range.

Frag Rifle

The frag rifle produces intense killing power at close range, though due to the spread of the shot, its efficiency rapidly tails off at medium to long range.

WEC Level 1: Servo Reloader - Decreases reload time.

WEC Level 2: Magneto Concentrator - Any frag rounds that miss the target and are imbedded within range of the target are drawn to the concentrator round on contact.

WEC Level 3: Titanium Concentrator - These rounds may persist even after killing a target, allowing for multiple uses.

Plasma Rifle

The plasma rifle is a high energy weapon capable of inflicting heavy damage via rapid fire charge particle bursts. The plasma rifle's upgrades require you to hold down the trigger to charge the sphere before releasing it.

WEC Level 1: Arc Sphere - Releases your remaining plasma canister producing a large energy sphere that electrocutes nearby targets.

WEC Level 2: Defense Sphere - Augments the Arc Sphere. On impact the Defense Sphere remains active for a short time, continuing to damage nearby enemies.

WEC Level 3: Explosive Sphere - Further augmentation. After this Sphere burns out it will unleash a deadly explosion.

Sniper Rifle

Once exclusively used by military personnel, this modern sniper rifle has found its way into the black market and is now commonly found in the armories of weapons dealers throughout the system. When upgraded, the scope allows the user to isolate targets by heat source, making them easier to pick off.

WEC Level 1: Enhanced Vision - Provides a thermal view of surrounding area, creating high contrast on warm-blooded targets.

WEC Level 2: Expanded Clip - Allows the user to expend more rounds between reloads.

WEC Level 3: Armor Piercing - Inflicts greater damage, and is capable of killing armored foes with a single shot to the head.

Rocket Launcher

Your standard, heavy duty, anti-personnel, anti-vehicle, rocket launcher. Designed with one purpose in mind - to obliterate anything in its way. With WEC upgrades the rocket launcher is a serious threat on the battlefield.

WEC Level 1: Heat Seeking - Rockets are able to track both human and vehicle heat signatures.

WEC Level 2: Dual Warhead - The launcher fires twin warheads to deliver twice the punch. Hold down the trigger while scanning over targets to lock on. Release the trigger to fire warheads at the targets.

WEC Level 3: Quad Warhead - Multiple warheads are deployed in a single shot for a devastating hit. Hold down the trigger while scanning over targets to lock on. Release the trigger to fire warheads at the targets.

VEHICLES

Bogie

Two man All Terrain Vehicle. The driver can shoot the front mounted machine guns directly in front while the passenger can control the vehicle's rocket launcher or machine gun in a full 360 degrees. Made from similar parts as the Wasp, the Bogie is larger and has some storage capacity. It is the most prized vehicle of the Scavengers for its power and maneuverability.

Wasp

Single man, 3 wheeled trike with mounted gatling gun. Used by Scavengers; these vehicles have been built up from parts of old or stolen equipment. Fast and agile; used many times by the Scavengers for quick raids on the prisons to free more of their own.

Dart

Single man hover vehicle with dual mounted pulse cannons. This quick vehicle is used by the prison guards on patrol or for fast ground transfer between prisons.

Dozer

This large, tank-like vehicle is slow but very well armored and can transport a number of people. When fully loaded and everyone using their weapons, it's a moving fortress.
